

Technology for Every Classroom & Student

New Community Spaces

Curriculum Enrichment

Supporting Creativity & Innovation

The Byram Hills Education Foundation is a volunteer-run non-profit organization dedicated to enhancing the education of all students in Byram Hills. A collaborative organization made up of educators, school administrators, and parents from our community, the BHEF has become the district's innovation engine.

The BHEF has awarded over 440 grants totaling more than \$5.2 million across every Byram Hills school.

During the 2021-2022 school year, donations like yours allowed us to fund grants that extend educational opportunities beyond what the District's operating budget can provide. These grants will strengthen our community for years to come:

**StartUp.** StartUp is an immersive, multi-year pathway for high school students to build entrepreneurship skills as they pursue their own product or service startup company.

### Executive Functioning Workshop.

This program centers on cultivating critical skills required to excel in school, work and life. These skills include time management, prioritization of tasks, focus and adaptive thinking.

### K-5 Environmental Science Program.

This program for all K-5 students extends and enhances the environmental sciences curriculum by providing a variety of hands-on learning experiences whereby students will explore the world around them.

**Flexible and Focused Seating in Our 5th Grade Community.** This pilot program will bring dynamic, flexible seating to every 5th grade classroom fostering increased choice, creativity and critical thinking.

### Coman Hill Outdoor Learning Patio.

This will provide a new outdoor classroom, assembly and community space for our youngest learners at Coman Hill.

**Shark Tank.** This program introduces the opportunity for students to identify and apply for BHEF grants based on their own innovative ideas to enhance their educational experience.

**SupportByramHills.org**

Please consider helping us grow our leadership circles, which include unique and exciting benefits detailed further at [SupportByramHills.org](https://SupportByramHills.org).
